

OPINIONS DIFFER ON PROPOSAL TO CUT MEMBERSHIP

Motion to Reduce Institute Committee Evokes Storm of Argument

MEN EXPLAIN VIEWPOINTS

The proposed reduction of the Institute Committee has aroused a great deal of strong feeling especially on the part of those affected. The Combined Professional Societies are anxious that their representation remain as it is, but if it is decreased they want to see the publications and the Dorms fall too. Others, on the contrary, seem to agree that the Societies should have their representation decreased but the others should remain as they are. THE TECH has asked a few of the interested parties their opinions, and prints their answers herewith.

Suggests Admission Charge

M. A. MacDuffie '25, General Manager of Technique, declares: "In view of the verbal bombshells tossed so high about at the last meeting of the Institute Committee, it might seem in order to sell seats to the next gathering. However, it is highly probable that the members of the Societies who are to lose their seats will think better of their somewhat pointless revolt and withdraw their motions" (referring to those concerning the publications and Dorms). "The committee, after all, is supposed to represent the Student Body not alone justly, but efficiently. It is much more worthy of their position that they prove themselves invaluable as active representatives rather than objectionable as obstructionists."

H. E. Wehmiller '25, Chairman of the Combined Societies, in a Communication to THE TECH, says, "Decreasing the number of seats means that the remaining members will have their power increased proportionally. Where this scramble for prestige would stop is a point of conjecture."

"The Lounger suddenly dropped his role as master of wit and sarcasm to indulge in a column of cheap and disgusting propaganda. It is to be regretted that he has broken a prece-

MUSICAL CLUBS TO PLAY FOR FILENE'S

Entertain Department Store Employees Tomorrow Evening

The Combined Musical Clubs will undertake their first engagement of the season tomorrow evening at Filene's Department Store, where a concert and dance will be given under the auspices of the Filene Co-operative Association's Women's Club. The clubs first performed before the Women's Club two years ago so that this is their second engagement at Filene's.

The program is composed of thirteen numbers, including selections by all the clubs and several specialty acts. The specialty acts that will go with the clubs on their Winter trip have not yet been selected, so that the management has decided to try out three or four of the men offering variety numbers at the first few concerts and to decide from the receptions which these acts produce as to just which ones will be permanent features of the season's program. The specialty acts on trial this time are: trombone solos by A. R. Kieth '28, a banjo duet by Ray Mancha '26 and D. A. Sheppard '26, which was one of the specialty acts last year, and an accordion solo by Homer Huntoon '28. The music for the dance following the concert program will be furnished by the clubs' Dance Orchestra.

The program for the performance is as follows: 1. "Take Me Back To Tech" by the Glee Club; 2. (a) Popular Melody No. 1 and (b) "Gallantry Duo D'Amour" by the Banjo Club; 3. (a) "Traumerei" and (b) "Three Star Polka" by A. R. Kieth on the trombone; 4. (a) "Melodie In F" and (b) "Love's Dream After The Ball" by the Mandolin Club; 5. Banjo Duet by R. Mancha and D. A. Sheppard; 6. (a) "Viking Song" and (b) "Cardinal and Grey" by the Glee Club; 7. (a) "Meditation From Thais" and (b) "Spanish Dance" by K. M. Peterson; 8. "La Spagnola" by the Mandolin Club; 9. Accordion Solo by Homer Huntoon; 10. Popular Medley No. 2 by the Banjo Club; 11. (a) "Suomi's Song" and (b) "The Elf Man" by the Glee Club; 12. Popular Selections by the Dance Orchestra, and 13. "The Stein Song."

Two Thirds of Drive Quota Yet To Raise

Less than \$1000 total has been collected by the Combined Drive so far. The Class of 1926 has contributed most, with 1927, 1928, 1925, and the Graduate Classes following in the order named. Not all the fraternities have yet reported, but the following announcements have been made:

Alpha Tau Omega	100%
Delta Kappa Epsilon	100
Delta Upsilon	100
Lambda Phi	100
Phi Kappa	100
Sigma Chi	100
Theta Chi	100
Theta Delta Chi	100
Theta Xi	100
Beta Theta Pi	93
Kappa Sigma	78
Sigma Nu	86

The T. C. A. will prepare more detailed reports as more information becomes available.

ALDRED LECTURES START ON FRIDAY

"Suggestions From A Factory Executive"—Subject Of First Talk

"Suggestions From A Factory Executive" is the subject on which Mr. R. E. Thompson will address the members of the Faculty, Senior class, and Graduate students in room 10-250 at 3 o'clock this Friday afternoon. This will be the first lecture this year of the series of talks by prominent engineers and business men, founded at the Institute last year by Mr. J. E. Aldred.

Mr. Thompson is Superintendent of the Gillette Safety Razor Company, director of several other manufacturing companies, and the inventor of an efficiency indicator for motor vehicles. His many years of experience as an industrial engineer and business man have gained for him considerable prominence in engineering circles. The lecture this Friday will include Mr. Thompson's viewpoint of the problems met with in humanizing the engineer.

T. E. N. Undecided

Classes in Graduate and fourth year subjects will be omitted at 3 o'clock so that all Graduates and Seniors will be able to attend the lecture.

D. H. McCulloch '26, Managing Editor of Tech Engineering News, states that the Managing Board is as yet undecided whether or not the Aldred Lectures will be reprinted in that publication this year.

NEW CADET OFFICERS APPOINTED IN R.O.T.C.

The Military Science Department announces the following appointments of Cadet Officers in the Reserve Officers' Training Corps:

To be Cadet Captains: M. G. Salzman '25, F. C. Hastings '25.
To be Cadet First Lieutenants: E. R. Ward '25, Warner Lumbard '25, R. Johnson '26, J. C. Dunbar '25, W. H. Graves '25, A. G. Hall '25, G. M. McNeil '26, K. W. Proctor '25, F. D. Klein '25, J. P. Ramsey '25, G. W. McDuff '25, E. O. Rublee '25, G. Gilboy '25, M. H. King '25, E. N. Wendell '25, P. M. Richardson '26.

To be Cadet Second Lieutenants: A. J. Olson '25, R. E. Whittaker '25, T. Taylor '26, R. J. Marin '26, R. W. Tryon '25, W. P. Lowell '26, W. H. Latham '26, R. Leonard '26, L. C. Colt '26, E. C. Jones '26, Karl French '26, W. H. Taylor '26, E. F. Knight '26, D. K. Taylor '26, W. T. Brown '25, F. W. Gratz '26, H. E. West '25, R. P. Booth '25, W. R. Dresser '26, F. Strickland '26, W. L. Hamilton '26, W. W. Peterson '26, D. B. Powers '26, W. Ashbridge '26, A. L. Cobb '26, A. E. Larratt '26, J. R. Oakley '26, I. C. Salmon '26, D. H. McCulloch '26, W. H. Emerson '26.

To be Cadet Sergeants: C. DeFazio '27, C. Wurtzel '26, W. C. Tobie '27.

DEBATING CLUB HOLDS AN INFORMAL DINNER

The Debating Society held an informal dinner in the Grill Room of Walker Monday evening. The speakers were Richard Hale, Boston attorney, and D. M. Fuller, coach of the Society.

The Debating Society has this year been made a General Study, GS 46.

ANNOUNCE WRITER OF TECH SHOW AT SMOKER TONIGHT

Scene This Year Laid in This Country—Ballet Probably To Be Omitted

CAST TRY-OUTS HELD SOON

Tech Show holds its first smoker of the year tonight at eight o'clock in the main hall of Walker. The author of the winning book will be announced. Refreshments and smokes will be furnished. The smoker is primarily intended for candidates for the cast and chorus of the show.

The scene of this year's show is laid in this country. The author will be introduced tonight and will describe his show and the characters. Alexander Macomber '07, former General Manager of the show, will speak, followed by Eric Hodgins, managing editor of the Technology Review. W. W. Criswell '26, and D. E. Elmendorf '26, General Manager and Stage Manager respectively, will speak briefly.

Skits from last year's show, by Richard Whiting '26, will furnish part of the entertainment. Whiting was the hero in last year's show.

Old Coaches Are Back

C. A. Young has been secured again this year to direct the orchestra. The cast will be coached by R. L. Harlowe, who acted in the same capacity last year. A chorus coach will soon be announced. It is not expected that there will be a ballet, although a definite decision has not yet been made.

Arrangements are being completed for performances of the show three times in Boston, and in Norwich, Northampton, Poughkeepsie, and New York City, with a probable week-end stop in Northampton. In New York the show will again play in the ballroom of the Waldorf-Astoria. Other places may be added to the schedule before plans are finally completed.

Candidates for the cast and chorus will be given an opportunity to sign up for the position they wish to fill tonight. The first cast rehearsals will be held in the north hall of Walker at five o'clock tomorrow evening. Chorus rehearsal dates will be announced soon after.

SQUARE AND COMPASS CLUB MEETS TONIGHT

A dinner and entertainment will be given by the M. I. T. Square and Compass Club, which is the club of the Masons of the Institute, tonight at six o'clock in the north hall, Walker. The tickets are \$1.50 and are obtainable either at the door or from M. W. Boyer '25.

According to those in charge of the affair, the entertainment provided will be of the best. This is to be the first meeting of the club this year and all Masons at Technology are cordially invited to attend. The speaker will be M. L. Perrin.

Scholarship Rating List Shows A "P" Average For All Technology

Non-fraternity men at Technology had a slightly higher scholastic standing than the members of fraternities according to statistics for the third term released by the Dean's office recently. The average for 1802 non-fraternity men was a little more than "P" while the average mark of the fraternity members was slightly below passing grade. The comparative index numbers used for reference are 9200 and 8526 respectively. All statistics given are for undergraduate men only.

Comparative scholastic standings of the fraternities for the first and third term have been figured for several years. This time a number of other comparative ratings were also worked out and this extra work has delayed the issuing of the usual statement slightly. The statistics covering the fraternities were compiled from the records of 614 men who completed 29,612 hours of work. The records for the third term of the last scholastic year show the following ranking:

1. Alpha Mu Sigma
2. Phi Beta Delta
3. Tau Delta Phi
4. Sigma Alpha Mu
5. Tau Epsilon Phi
6. Lambda Chi Alpha
7. Sigma Chi
8. Sigma Omega Psi
9. Theta Chi
10. Alpha Tau Omega
11. Phi Gamma Delta

T.C.A. Renders Rare Service to a Mother

Hallowe'en brings forth many strange happenings but the strangest incident this year was a service performed by the Social Department of the T. C. A. A certain young lady was to go to a dance Hallowe'en night at a Masonic Temple. Her escort having decided to be ill that night, she had her mother call W. M. Ross, general secretary of the T. C. A. to send out two men to take her and a neighbor's daughter, who discarded her man so that she and her chum could have Tech men.

The only specifications were that the men be tall, as darling daughter was 5 foot 3 1/8 inches tall, and that the mother should meet said young men before the night of the dance. The expenses were to be entirely paid by the girls; also they were to have the use of the family Dodge. Mr. Ross very obligingly secured two men from Tech to go. On their return the Beau Brummells reported a good time was had by all but two men from Tech with two unattractive darling daughters.

FRESHMAN CLASS ELECTS WEDNESDAY

Nominations Due at Information Office From Budding Politicians

Nominations for officers of the freshman class, to be voted on at the election of the incoming class next Wednesday must be left at the Information Office, room 10-100 between 9 o'clock Friday and 1, on Saturday. The freshmen section leaders met with C. R. Muhlenberg '25, the chairman of the elections committee, Monday afternoon to discuss the coming election and make plans for conducting it.

Due to the small number voting at several class elections in the past the election system at present in operation has been under fire, and last spring a motion to change the existing system to a primary system or the preferential method was introduced at a meeting of the Institute Committee. The motion, after much discussion failed to pass by a very small margin. The freshmen have it in their power to lessen the criticism by getting to know their most able men, presenting them as candidates and then casting a vote large enough to show that the class is not officered by men chosen by the minority.

The nomination paper which must be filed shall contain the signatures of at least ten sponsors, be signed by the candidate and be in the form given in the T.C.A. Handbook. Eight officers are elected by the class at this time, a president, vice-president, secretary, treasurer, two representatives to the Institute Committee, and two members to the class executive committee.

COMBINED DRIVE AFTER TWO DAYS PROGRESSES WELL

Only Way to Dodge Free Lances Is to Exhibit the Gray and Red Button

SOLICIT DORMS AND FRATS

A total of \$264 in cash and about the same amount in pledges were collected in the first day of the Combined Drive for the benefit of the T. C. A. and the American Red Cross. Throughout the day, Monday, talks were given in many classes by representatives of the Combined Drive Committee enlightening the student body on the purposes of the drive.

Those who tread the Main Lobby without the little red and gray button fastened to their coat-lapel, will, for the rest of this week, find it difficult to escape the outposts of the drive's free lances, to whom is entrusted the job of forcing, by eloquent appeal, a flow of money from the pockets of the parsimonious to the coffers of the Combined Drive.

Dormitories Canvassed

Every subscriber is asked to put his money in one of the envelopes furnished and to write on the envelope all the information requested, to simplify compilation of percentages of the various classes, fraternities, and dormitories contributing. The results will be shown daily in the Main Lobby by means of thermometers and bulletins. Subscribers may indicate their preference for the distribution of their money between the T. C. A. and the Red Cross.

Monday night the dormitories and fraternities were canvassed and speakers from the Combined Drive Committee were heard. On Tuesday the whole force of free lances were on the job, and, although the results of the second day were not ready in time for the press, indications were, that the receipts of the first day were exceeded.

DENISON AND LYMAN ADDRESS TECH SMOKER

Large Turn-out at Meeting—Refreshments Served

Last night THE TECH held its smoker for candidates in the north hall, Walker at 7:30 o'clock, with a large crowd attending. C. F. Lyman of the English and History department and O. B. Denison '11, Executive Secretary of the Alumni, were the principal speakers.

Smokes were distributed freely, including cigarettes and corn cob pipes. Chewing tobacco was available, but none made any request for it. Cider and doughnuts were provided. Paper caps were worn by all, red by those who had not yet signified their intention of coming out for the paper, blue by those who had.

Dr. Lyman spoke on Collegiate Journalism. Mr. Denison spoke on his experiences as reporter on the Globe. A member of the managing board spoke on the opportunities offered by THE TECH to candidates.

Invitations to the meeting had been sent out to all who, on entering, signified their interest in THE TECH, and the letters informed them that inability to attend he smoker need not prevent them from coming out for the staff. Quite a few men accepted the invitations rather than wait for another opportunity.

SLIDE-RULE LECTURE TODAY IN ROOM 10-250

Mr. R. D. Douglas of the Department of Mathematics will deliver his second lecture on the use of the slide-rule in room 10-250 this afternoon at 4 o'clock. All students interested are invited to be present. It is suggested that the men bring their slide-rules with them.

Professor Joseph Lipka, who died last year, inaugurated the lectures on the use of the slide-rule, several years ago, and they have since proved quite popular with the students.

CALENDAR

Wednesday, November 12
4:00—Slide rule lecture, room 10-250.
7:30—Military Engineering smoker, Walker.
8:00—Tech Show smoker, Walker.
Thursday, November 13
3:10—Corp. XV meets at Carter's Ink plant.
Friday, November 14
3:00—Aldred Lecture, room 10-250.
8:00—Catholic Club Dance, main hall, Walker.

FRESHMAN ELECTIONS

NOMINATIONS are due in this week for the officers of the freshman class, and it is urged that all members evince their interest by initiating or supporting the candidacy of the men they feel to be of official calibre. The freshman election is at best a haphazard affair, making it most essential that the class express itself to the highest possible numerical extent in order that the error of choice may be minimized.

Choosing the best man is difficult and to do so it is necessary to be acquainted with the men being nominated, their personality, their sincerity, and their stability. Is their scholastic record indicative of their ability to remain at the Institute? Have they capacity to serve as an officer, attentive and active to the full requirements of the office, and at the same time to do justice to their work?

These are some of the criterions that should be kept in mind in the selection of men. There arise at times various cliques which seem to draw a following. Such should have no place in a student election. Unbiased voting redounds to the credit of the voter—let every freshman who values and trusts his own judgment vote independently. But most important, there should be no exhibition of indifferent attitudes. Get behind some nominations, and then put some selective enthusiasm into the elections!

The Combined Drive is a combination in restraint of unlimited Charity Campaigns. Make it a permanent affair by giving it your support.

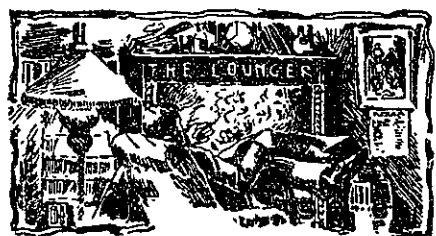

TRADITIONS

TECHNOLOGY has few traditions as it is, and we are glad to hear that at least one has been remembered. It used to be the custom in the days of the old buildings across the river to gather together on the steps of Rogers to pass the time and to sing Technology songs. Men got to know one another under conditions far more conducive to lasting friendship than the classroom. An attempt to revive this tradition was made on Field Day when the snake dance following the athletics wound up in a general meeting on Rogers' steps at which "Take Me Back to Tech" and "The Stein Song" were sung.

This is all right, but to have a snake dance every time you have a sing means getting nasty headlines in the Boston papers. Since we have moved from the old buildings, no place has been chosen by the students as a gathering place. What is wrong with Walker's Steps. We have an old tradition. Why scrap it when it can easily be revamped to fit present conditions. A "Community Sing" was held in the Dormitories last Sunday. That proves that some men in the Institute are interested in our old songs.

Traditions are too little thought of here at the Institute. One never hears of them except from Alumni who complain that the students of to-day have no college spirit. Men formerly got together on Rogers' Steps. The Beaver was branded as a made to order tradition and discarded. Here is a tradition that has existed for years. Why throw it to the winds?

Technology students seem to be as opposed to a long term as are the guests in Sing Sing.

Up till last Monday evening the Lounger had felt that never again would he be thrilled by the sight of the whole Boston and Cambridge Fire Departments rushing out to quell a blaze on the rejuvenated eye-sore between the Institute and Boston. However, as he was walking home to supper on that evening, lo and behold there was an ample representation of the Cambridge Department fighting a fire of some kind under the bridge.

It seems it was started by a short circuit of some kind, and was of sufficient magnitude to completely dispose of telephone service between Cambridge and Boston for some time. However, the only thing that really attracted the

Lounger's attention was the following dialogue:
A Fireman: "Hey Chief!"
Chief: "Yes?"
Fireman: "This is Cambridge, ain't it?"

This took place shortly before the hose was turned on. Apparently this particular fireman was dunned if he was going to fight any of Boston's fires for it, and wanted to make sure that he was still on the Cambridge end of the bridge.

PENN HONORS OLDEST ROOTER FOR FOOTBALL

Penn State honored her oldest rooter. For over 40 years Andy Little has been synonymous with football at Penn State. Between the halves of the North Carolina game, the Sophomore class formed the name ANDY in huge letters, stretching all the way across the gridiron. Eleven hundred freshmen marched across the field and elected him an honorary member of their class.

Communications

To the Satraps of the Technique Proletariat:

Ye of the ponderous pornographic monstrosity, of the hackneyed, trumped-up, tail-bearing, torpid tome, of the filthy cuts and unaesthetic artistry, hear Ye These Presents!

Your vituperative traducement and imbecilic muniment, a perfect example of your guileless sophistry, reached our enlightened journalistic sanatorium recently smelling of filthy, inky excrement. Its disingenuous content brought loud Hosannahs and side-splitting equestrian laughs at your naive brass. The savage joy of the tiger surged through our breasts upon your delivering to our warriors of the tri-weekly quest the opportunity to oxidize your cringing bodies on the grid-iron.

Into your cerebellums, therefore, pound this fateful decree—that on Wednesday, November 19, you are to appear in Mike Hoar's back yard that we might reduce your vile legion to obsequiousness, nay, to mangle your torpid anatomies to an ultimate greasy spot and to dam your debased souls to Styxian oblivion. Your challenge is scornfully accepted and we go out to prepare the eleven tongued typhoon which will precipitate the holocaust which will forever wipe your hogwash from the fair pages of the official, continuous, enlightening, indispensable superiority.

Come down from your cowardly heights in sack cloth and ashes, absolved and penitent, for on the aforesaid day you will enter the Kingdom of Mephistopheles. The potent pigskin will grace our dainty chambers while theimps of hell torment you by adding up the incomprehensible score.

Sneaky, snaky, skunky 'Snique Hear Ye These Presents!

Bloodthirstily,
Donald A. Henderson,
General Manager, THE TECH

To the Editor:—

In the meeting of the Institute Committee which was held last Thursday, three motions were tabled until the next meeting. The last two of these were referred to by THE TECH as "retaliations," while the Chairman of the Institute Committee characterized them as "childish."

Both of our worthy critics are in error—there was nothing either childish or retaliatory concerned with the presentation of these two motions.

Two meeting ago it was announced by Mr. Cole that plans were under way for a reduction in the size of the Institute Committee. The next move in this direction was the motion presented by Mr. Mitchell to reduce the representation of the Professional Societies to one.

The purpose of the two motions which we presented was not to reduce the representation of the publications or of the dormitories but to call attention to the manifest unfairness of the means by which it was proposed to reduce the size of the Committee. If a reduction in the size of the committee is necessary, the burden of reduction should be borne by all types of activities represented on the Committee at the present time.

If the first of these motions is passed without the other two, one can scarcely refrain from questioning the sincerity of the sponsors of the first motion.

(Signed)
Harrison Browning '25, Ch. M.E.Soc.
Stuart John '26, Chairman A.I.E.E.

(The only portion of the above communication that requires any sort of response is the fourth paragraph. This matter was largely covered by the Lounger in Monday's issue of THE TECH. However, in order that Messrs. Browning and John may see just what they are saying, we will outline the present representation on the Committee.

The Committee now consists of the following men: three men from each class; three men from the dormitories; and one man each from the following organizations: The Budget Committee, the Walker Memorial Committee, the Activities Committee, the Finance Committee, the Boathouse Committee, the Point System Committee, the Elections Committee, the Intramural Committee, and the Dormitory Executive Committee; one man from each of the following activities: the M. I. T. A. A., Technique, Tech Show, Voo Doo, Tech Engineering News, Combined Musical Clubs, Technology Christian Association, and THE TECH; and one man from each of eight professional societies.

We feel sure that Messrs. Browning and John will see the point of the five divisions that have been made above, i.e., into classes, dormitories, undergraduate committees, major activities, and Professional Societies. They should see that no reduction can take place within a group without reducing the whole group. They should see that no group can be done away with. They should see that if a reduction is to be made, the only logical thing to do is to pick out the group where representation is the least necessary from a point of view of government, and to reduce the representation of that group to a minimum. The eight Professional Societies, as has been previously pointed out in these columns, bear no real importance from a governmental viewpoint, and accordingly, that is the

logical place for the reduction. Their representations is not being wiped out. There will still be a man from the Combined Professional Societies sitting in the meeting. As previously stated, if he does not represent the societies properly, he should be fired and a new man appointed.

The first Institute Committee was too small, being composed of class representatives only. It flourished for a time, but almost went under after a time. It was revived again and representation was given to anyone who had the least title to it. This was done by way of experiment, and provision was made in the new Constitution for easily lopping off organizations which were found unnecessary,—viz, the Cosmopolitan Club,—and which entailed needless cross-representation.

It is not, therefore, that we are maliciously singling out the Professional Societies, but are doing just what the framers of the present Constitution knew would have to be done when they wrote that document.—Editor.)

To the Editor:—

In today's issue of THE TECH you were kind enough to offer to answer any question there might be concerning the three motions which are soon to come up for the consideration of the Institute Committee.

There are two questions in this matter about which I am uncertain, and I would therefore be obliged to you for enlightenment.

(1) If a reduction in the size of the Institute Committee is to be desired, why is it necessary to resort to irregular means to accomplish the desired end? It seems to me that if there were no other motive than the reduction in the size of the Committee, the Chairman would appoint a committee to investigate the desirability and the means of effecting the reduction.

(2) Under date of November 7, 1924, a letter was sent to you signed by Mr. Browning and myself. The reason for sending this letter was to explain the purpose of the two motions which we presented. If THE TECH is interested in fair play in this matter, and I am sure you are, this letter should have been published.

The only thing we are combating is the irregularity of the proceedings. If it is reported, regularly, by a Committee on which we are represented that it is desirable to reduce the size of the Committee and that the best and fairest

Cox Dearle Guides Sophomore Crew To Victory

SOCCKER TEAM MEETS HARVARD ELEVEN TODAY

SOCCKER OPPONENTS TO MEET ON TECH FIELD AT 2 TODAY

Beaver Team To Oppose Strong Crimson Eleven This Afternoon

FIRST MEET IN TWO YEARS

This afternoon the M.I.T. soccer team will meet the Harvard players on the Technology field at 2 o'clock. The lineup for the Beavers is essentially the same as opposed Amherst last Friday; except that Martinez has been shifted to the outside left on the forward line in place of Arellano, and Hsin is to play on the inside left of the forward line. Harvard has developed an exceptionally strong eleven this season, being defeated only by Princeton.

In the first game of the season which was played on their own field the engineers won from Worcester Tech by the count of 2-1. The next to be conquered by the Tech booters was Clark College, whom they shut out by a 1-0 score. Then in the game with Dartmouth at Hanover the Institute players received their first defeat in two years, losing to the Hanoverians by the tune of 1-0. Last Friday the varsity eleven made up for their defeat the week previous by defeating the strong Amherst team, breaking a tie during the last 10 minutes of the game and finishing 4-3.

Last year the Beavers did not play the Crimson team; but two years ago the two met and finished with a 1-1 tie. So far this season Harvard has had good luck; defeating Cornell 2-0, Dartmouth 3-0, and losing only to Princeton by the score of 2-0.

Harvard's main source of resistance lies in her forward line, but they are due to come up against a strong forward line this afternoon. For Ruiz is still playing his old position of center forward, and on the right he is supported by Bateman and Marques, while Hsin and Martinez are to furnish the resistance on the left. Cheney is to defend the goal, as usual, with Captain Sun and Charlie Young as guards, while Jones, Arana, and Sacco are to hold the half-back line. The game is scheduled to start promptly at 2:00 o'clock and promises to be fast and interesting.

TRACK MEN HOLD MEET SATURDAY

Loving Cup Given to Man With The Most Points in One Event

Saturday the first handicap track meet will be held on Tech Field at 2:30 o'clock in the afternoon between members of the track squad. This meet will be the first of a series of ten to be held throughout the school year. Four are on schedule for his term and the rest are divided up between the spring and winter terms. Eleven events are included in the program for this Saturday including all the major track and field events common to a big intercollegiate track meet.

At the end of the handicap series the man totalling the greatest number of points in one event will be awarded a loving cup donated by the Advisory Council, for his performance in that branch of the sport. As each man will receive a handicap based on his previous performances in the competition entered, everyone will start more or less on an even basis. Doc Connors stated yesterday that he expected a large number of competitors in each event, as unequalled opportunity for competition is offered to the new and veteran track men to test themselves.

Program for This Saturday
Last year the handicap meets were started a little too late in the season to complete the required ten meets with the result that the cups were not awarded to any one. With the first meet this Saturday, and a meet scheduled for each succeeding week end until the first term examinations ample time will be available for running the full schedule. The meets will be run off on Tech Field until the frost, then the running events will be run off on the new board track in back of the hangar gym. A different program from the one Saturday will be run the following week, and each week-end according to Doc Connors the program will be varied.

The events for this Saturday are: 70 yard dash, 70 yard hurdles, 660 yard run, one and a half mile run, 16 pound hammer throw, discus throw, pole vault high jump, broad jump and javelin throw.

Ruiz—Center Forward

SOPH CREW WINS IN RACE WITH JUNIORS OVER MILE COURSE

Sophomores Lead Juniors by One And One Half Lengths At Finish

MAKE COURSE IN 5:49

Over confidence and a strong Sophomore eight were the two main factors in the race for class supremacy which was rowed yesterday afternoon over the mile course. On Field Day the 1922 outfit had little trouble in defeating the yearling crew, but yesterday's race meant hard work on the part of both crews. It was the opinion of everybody that the Sophs had very little chance of defeating the Juniors. The second year oarsmen, however, by keeping up a fast stroke, managed to come in ahead by a length and a half. By winning this race the 1922 crew become the undisputed champions of the four classes.

The race was scheduled to start at half past four, but due to interference of the Harvard crews at that time, it was almost dark before the final command was given. At the start the Juniors gained the lead by about half a length, but at the half mile mark the Sophomores had caught up and gained almost a length on their opponents. From that point on they gradually forged ahead so that at the finish they were in the lead by a length and a half.

On Field Day the Sophomore crew went over the mile course in 5 minutes and 28 seconds. This time is only three seconds more than the record. In yesterday's race the time was 5 minutes and 49 seconds, the difference being due to the wind that was blowing directly up stream. On Field Day the wind was in the opposite direction.

Juniors Expected Victory

It was evident that the Juniors were expecting nothing else but a decisive victory, for just before the crew went out, several of the men took a drag on a cigarette. The result of the contest was a bigger surprise to them than to anybody else.

During the five weeks of practice for these races, the Sophomore crew was highly handicapped on account of the constant withdrawal of men for the Varsity and Junior Varsity. All this time, the men were going out for practice every night and with the aid of Coach Pond gradually rounded into shape. Bill Haines has been watching this crew and now that they have come out so successfully so far, he is matching them in a race with the Varsity and Junior Varsity tonight. They will undoubtedly show up well against the J.V.'s but cannot be expected to do much against Bill's best.

As it stands, this crew would make a very good 150 pound outfit, as very few of the men weigh over that amount. P. C. Eaton, captain and stroke, weighs 152, George Copeland, bow, does not reach the 150 mark. Harvey is another light man. Osborne, Moineau, Hammond, Johnson and Munro, are all a trifle heavier. Dearle, the cox, weighs 118 pounds. By winning the race on Field Day all the members of the crew earned their numerals, and by defeating the Juniors the names will be placed on a banner which is hung in the boat-house. Last year the Seniors were the class victors.

The lineup is as follows: 1, Copeland; 2, Munro; 3, Osborne; 4, Moineau; 5, Hammond; 6, Johnson; 7, Harvey; stroke, Eaton; cox, Dearle.

Swimmers Look Forward To An Eventful Year

Meets Arranged With Yale, West Point, Brown, and Other Fast Teams

Swimming at Technology has had its ups and downs, with last year showing an improvement over the previous year. This year an endeavor is being made to have swimming at the Institute one of the biggest athletic activities.

There are three things that spell success for any college team:

1. Enthusiasm and ambitious candidates.
2. Support of the student body.
3. Good coaching.

These three things are all dependent upon one another. The enthusiasm of the candidates dwindles if the student body loses interest. The student body loses interest if the team is unsuccessful or is poorly coached. The coach may lose interest if the candidates do not show a willingness to do their best.

Among the present candidates there is a fine spirit. Such men as Captain Bill Walworth, Armstrong, Himrod, Woods, Wiess, Purcell, Parsons, Kerns, Ford, Johnson, Richardson, and many others deserve much credit. They are out at the Y. M. C. A. plugging four and five days a week, doing the early season hard work to be in condition when the meets begin next January. This early season work consists mostly of exercises to strengthen the body, with special emphasis on the muscles most used in swimming. There is also plenty of drill on the rudiments of tank swimming, starts and turns, etc., and in perfecting the general form. However it is not all drudgery by any means, as the relay races and handicaps are enjoyed by all the participants.

Interesting Meets Arranged

Ken Lord '26, the manager, has arranged meets with Yale, West Point, Brown, Boston University, Wesleyan, etc., and in order to go through these meets successfully, the team needs support. This support consists, not only in attendance at the home meets by the student body, but also in an increased number of candidates for the team. There must be many men at the Institute who are diamonds in the rough from the swimming point of view. Men who have never measured their strength in this sport against others; men who have always enjoyed swimming but have never been properly instructed in the art; men who have time to give to swimming who do not do so.

More candidates means better competition which develops a higher standard and thereby insures more victories. Just before the Christmas vacation an inter-class meet will be held. Each class should be represented in each event, and more men are needed to complete the class teams.

All information can be obtained from Ken Lord in the M. I. T. A. A. office.

The soccer game this afternoon will be well worth the effort of attending, as it has been two years since the Institute soccer team has faced the Harvard eleven.

Both teams are evenly enough matched so as to provide plenty of excitement, and it rests with the undergraduates to show the Crimson players that Technology is capable of showing just as much spirit as the other colleges.

Candidates Out In Freshman and Varsity Boxing

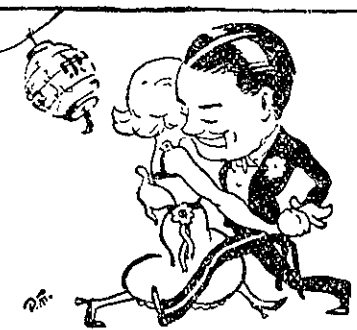

Strong Schedule Arranged For This Year—Only One Veteran Back

There were about 60 men turned out for the boxing mass meeting which was held in the hangar Monday afternoon. These men represented both freshman and varsity candidates. The manager for this year's team A. S. Brookes '26, has arranged a strong schedule which will be published at a later date. Although Chuck Kuhn is the only veteran varsity man back, prospects in this line of athletics are very good.

The candidates listened to talks by the Manager, Coach Rawson and Chuck Kuhn. The boxing team for this year will be run on a little different schedule than former years. Instead of having elimination bouts for places on the team there will be two men for each position. This will necessitate the maintaining of a larger squad than in former years and also will insure that the best man be used in each match.

Another feature which is different from previous seasons in the introduction of a system of definite supervision for training. There has never been any supervision training, the candidates having kept themselves in condition according to their own ideas. Needless to say the ideas differed widely in individual cases and consequently the best results were not obtained from the men.

This year things are to be systematized and every man must follow out this system of supervised training. Practice will be held in the hangar as in former years on Tuesday, Wednesday, and Thursday. In order to be eligible for the team a man must attend practice consistently.

The winning stride

Watch him at the "Prom." He's there with perfect ballroom condition from soles of his patent pumps to top of his glossy dome.

He's just as neat after the twentieth dance as during the first footstep. There's no secret about his method. "Vaseline" Hair Tonic goes to his head regularly. It makes his hair silky and manageable and prevents dandruff. At all drug stores and student barber shops.

Every "Vaseline" product is recommended everywhere because of its absolute purity and effectiveness.

TENNIS MEN READY FOR NEXT SEASON

Manager Has Arranged Matches With Leading Colleges

In preparation of a strenuous season next spring, the varsity tennis team has already had several practice matches among themselves. Yesterday, Broadhurst and Peck defeated Russel and Hinckin a close match 6-4, 7-5. Broadhurst and Peck have had a years practice playing together, so naturally made a better doubles team than the strange team of Russel and Hinck. The score does indicate however, that Technology has two strong doubles teams, no matter which combination is chosen.

Broadhurst was the outstanding star of the winning combination, with Peck backing him up in his usual steady consistent manner. The strength of the team, however, lies in its balance. All four players were semi-finalists in the Fall Tournament, while Russel and Hinck were opponents in the finals. The strength is shown by the upsets that occurred in practice matches this last week. Frank Broadhurst defeated Ken Peck two out of three sets, then Ken turned around and defeated Hinck 6-3.

Manager C. B. McFarland '26 has already arranged for six matches, four home and two away. The home matches are with Harvard, Bowdoin, Boston University and Dartmouth. The matches that will be played away are Williams and Wesleyan. This is the first year that Technology has been able to secure a match with the Harvard Varsity in a good many years, which is an excellent sign of the improvement that has been made in tennis teams at the Institute.

OPINIONS DIFFER ON COMMITTEE REDUCTION

(Continued from Page 1)

dent in taking a serious stand in the matter, rather than continue in his impartial razzing of all concerned or otherwise.

"They" (the supporters of the motion) have failed to answer satisfactorily the question of "Why should the Institute Committee be decreased?"

"Voo Doo has nothing to say at present," says Frank Riegle '25, its General Manager. B. F. Groenwald '25, General Manager of T. E. N., declares, "I agree entirely with THE TECH's stand on the matter both as to decreasing the membership of the Societies and letting the representation of the Dorms and Publications remain unchanged."

T.C.A. HAS STARTED SENDING MEN TO JAIL

Any one who wishes to go to jail Friday can make arrangements by seeing W. F. Blake '27 head of the Industrial Service department of the T. C. A. The Industrial department of the T. C. A. has started sending men to the Middlesex county jail between the hours of three and four in the afternoons to teach English and Mathematics to the prisoners. Volunteers for this week are H. H. Taylor '25, on Monday, Austin Cole, Jr., '25, on Wednesday, E. Hartshorn '28 on Thursday, and a volunteers is wanted for Friday. Each year the T. C. A. has sent men to the Middlesex County Jail to teach the inmates English and Mathematics.

COMMUNICATIONS

(Continued from Page 2)

means is by depriving the professional societies of their seats and representing them collectively by one man, we will be more than willing to co-operate. I have not intended this letter for publication, but you are at liberty to publish it in full or in part if you desire.

(Signed) Stuart John '26.

(So far as the irregularity of the proceedings is concerned, the simplest means of answering this question is to quote Article IV, Section 5 of the Constitution of the Undergraduate Association:—"Any other activity now existing or hereafter duly organized by the undergraduates, may, by two-thirds vote of the Institute Committee, be granted representation thereon, and any activity having a representative on the Committee may, by a similar two-thirds vote, be denied such a representation, provided notice of the proposed action of the Committee shall have been given the members of the activity and full opportunity granted them to present arguments and reasons why such action should not be taken.

This, we believe, covers any protest of irregularity. The motion was duly made, and two weeks time has been given any activities that are to be unseated.

In answer to the second count, Mr. John will find his letter published today. The reason that it was not published on Monday's issue is that it was not received until noon on Monday, obviously too late for publication on that date.—Editor.)

We are also in receipt of a communication from Mr. Wehmiller, Chairman of the Combined Societies, on this subject. It has been omitted due to lack of space.—Editor.

Notices and Announcements

OFFICIAL

COURSE 5.941

The sixth meeting will be held Thursday, November 13, at 4:00 P. M. in Room 10-250.

Mr. Russell of the Research Laboratory of Applied Chemistry will talk on "Submerged Corrosion of Iron and Steel."

SLIDE RULE LECTURE

Mr. R. D. Douglas of the Mathematics department will deliver his second lecture on the use of the slide-rule in room 10-250 Wednesday, at 4 o'clock.

CHORAL SINGING GS58

All students who are taking Choral Singing as a General Study are not to register for this subject until the beginning of the third term. They are required, however, to attend all the meetings during the first and second terms or they will not be allowed to register for GS58 the third term.

UNDERGRADUATE

CORPORATION XV

The next trip will be tomorrow to the Carter's Ink Co., Cambridge. Meet at the plant at 3:10 P. M.

The number of men is limited to the first 30 who sign up in 1-180.

TECH SHOW SMOKER

The Tech Show management will hold a smoker in the main hall, Walker, Wednesday, at 8. Call for cast and chorus.

R. O. T. C. SENIORS

Pay checks for Seniors of all units are now in.

OUTING CLUB

The Outing Club is running a horse-back trip next Sunday afternoon. See bulletin in main lobby for details and sign up there.

GRAY BOOKS

40 left. May be obtained at entrance to Building 2, 12-2 o'clock, or from 4 to 5 at the Technique office.

COMBINED MUSICAL CLUBS

Freshman candidates for the business department of the Musical Clubs may interview Messrs. Walker, Hatley, or Goren any day at 5, in the office, 310 Walker.

RIFLE TEAM

Candidates for the varsity rifle team are requested to report at the range Monday between 3 and 5 o'clock in the afternoon; or on Friday between 2 and 5 o'clock.

GIRLS' CLUB DANCE

Tickets for Chimney Corner Dance held by Girls' City Club of Boston every Friday evening may be procured at the T. C. A. office. Admission is 40 cents.

M. I. T. SQUARE AND COMPASS CLUB

Dinner and smoker tonight, 6 P. M. Faculty and Alumni dining room.

CHEMICAL SOCIETY

Smoker Thursday, Nov. 13, at 8 P. M., main hall, Walker. Speaker, movies, refreshments. See bulletin boards for program. Non-members invited.

TECH SHOW ORCHESTRA

Tech Show Orchestra rehearsal in north hall, Walker, Friday, November 14, at 5 P. M. sharp.

A. I. E. E.

There will be a trip to the Lynn General Electric Works tomorrow leaving the Main Lobby at 1:30. Sign up box is at 10-200.

COMPLIMENTARY TICKETS

The Social Division of the T. C. A. has received six tickets for the "Parish Williams" concert to be held this afternoon, Wednesday, November 12th, in Jordan Hall at 3 P. M. The first six people calling at the T. C. A. office for these tickets may have the same.

AD CORRECTIONS UNDERGRAD. A smoker and election of officers tonight at 8:30 P. M. in north hall, Walker, 10-250 today, at 4 o'clock.

TECH SHOW

Tech Show Lyric Writers meet in north hall, Walker, from 4:15 to 5:15, Wednesday.

SOCIETY OF MILITARY ENGINEERS

Smoker and election of officers Wednesday evening in north hall, Walker, at 7:30. Prof. D. C. Jackson will speak. All members of S. A. M. E. and Engineer R. O. T. C. Unit are urged to be present. Refreshments will be served.

Technology Dames Keep Students' Women Folk Happy

The Technology Dames is an organization composed of the mothers, wives, and sisters of Technology students. Its chief aim is to promote a feeling of friendship and helpfulness among its members and to make their stay in Boston a pleasant one.

There are many women every year who accompany their men folks to Boston to be with them while they are students at the Institute. Many of the women come from distant states, and often they get pretty lonesome with the men away at school all day. Whether they are strangers in Boston or not, they enjoy making friends with other women come from distant states, with in everything connected with the Institute. It is a joy to them also to become acquainted with the buildings which are so familiar to their men.

The Technology Dames meet every other Monday afternoon in the Emma Rogers room in the Administration building. There is always a worthwhile and interesting speaker, good music, and then a social tea. Besides the regular programs, there are occasional innovations, such as a bridge party, a theater party, a Halloween party or a Valentine party. A unique but very welcome feature of the meetings, is a temporary kindergarten held in the same room at the same hour as the meeting for the little children of members who perhaps could not otherwise attend.

There is also a visiting committee whose duty it is to call on all the new members and those eligible for membership. The greatest difficulty the club has is to locate the women folk of Tech students. The only clue is a questionnaire which asks if the student is married.

The visiting committee finds that the Technology student is prone to claim a wife who at the time of the call proves to be a "joke." But with mothers and sisters there is only one way to reach them and that is for the students to tell them about the Technology Dames. (It is a morale booster). The next meeting will be held in the Emma Rogers room on Monday, November 17, at 2:30.

TECHNIQUE PICTURES TAKEN IN INSTITUTE

Year Book Decides To Move To Decrease Inconvenience

For the rest of this term, the Technique photographer will be working in a studio which Technique is fitting up complete in one corner of room 3-410. All Senior individual pictures and many of the groups will be taken here.

Individual sittings this year will be only five minutes in length. In past years the Seniors have had to spend the better part of an hour in getting to and from the studio, and the new location saves a great deal of time. To make it even more convenient for the men, each Senior's schedule is being consulted and the appointment for the sitting made accordingly. Appointments are being mailed to the men, and any who are unable to keep their appointments are requested by Technique to consult with the photographer in room 3-410 at once in order to have another date set. The Technique Board hopes to have the Senior Portfolio completed within four weeks.

"HINDLE WAKES" IS AT THE COPLEY THIS WEEK

An old, old story, retold in a different way. The poor but honest working girl lead astray by the son of her wealthy employer, and all the accompanying complications. With the exception of the first act which seemed a bit lacking in force, the play was very well done, both as to writing and acting. E. E. Clive was good, as usual. There was just enough restraint to his voice and acting to give the desired impression of underlying power. His part was that of the wealthy North Country mill owner, virtuous to a fault, ashamed of the scandalous conduct of his son, a beastly rotter.

The story brings out the continual struggle between the single and double standards of morality. Nothing new, but treated in a somewhat different fashion. Rather appealing to the average American playgoer, who does not want anything too subtle, but who does not object to an occasional remark that with slight use of the imagination may be thought almost risqué.

May Ediss acts out her part of the poor weaver's daughter whose innocence has been contaminated in a very satisfactory manner, though her accent frequently reminds one of America rather than Lancashire. Katharine Standing is quite attractive, though her part gives little opportunity to show off her ability. Elspeth Dudgeon, C. Wordley Hulse, Harold West, and Phillip Tongue all did well in their respective parts.

W. A.

"WE'VE GOT TO HAVE MONEY" AT ST. JAMES

"We've Got To Have Money" at the St. James this week offers consolation to Tech students anticipating Vote Tens, for it describes the phenomenal financial climb of a man who refused to take a college education. Go early to avoid the rush.

As a comedy of situations, or rather a farce of exaggerations, it necessarily has a skillful skeleton plot, and as frequently is the case the plot is more interesting than the less ingenious mode of expression interposed upon it. It is impossible to engage the intricacy of the story in this allotted space, but suffice to say than the unusual elements such a villain, a trio of loving couples, an indissoluble collegiate friendship, and an ending so perfectly perfect that one would suspect that the planetary orbits had been equipped with ball bearings and esperanto and the Metric System universally adopted—all these elements were present and formed a synthetic compound most pleasing to the St. James constituency.

Many character were in the cast and
